EXOFORM

EXOFORM >>>

Uniformly low profile at 1492mm is designed by American team. Translucent shroud at thickness 3.2mm with smooth pattern is in injection molding, which designed elegantly and ensures ultra durability and non-deformation

Meet EN957 safety regulation

Build-in console, which is well designed by American UI team, displays reps and time

Ergonomically designed handle bars, which is patented, are with TPU material and aluminium grip ring. The concise design offers comfort and safety

The upright tubes are with special tube at size 72.8×141.7×3mm, and the functional part with race track tube at size 40×133×3mm. Tubes apply double powder-coated & painting process which ensure high-quality and ultra durability

Ergonomically designed upholstery is with PU foam which offers comfort and safety protection

The steel guide rod (diameter:19mm) is anti-corrosion coated and polished which ensures smoothly travel and rust-proof

Belt and cable driving system are both applied. Self-lubricate American Loss cable with nylon-coated 12 complex fiber ensures service life 300,000 times. The belt is with steel wire embedded which ensures ultra durability and long lifetime

Friendly designed iPad and bottle holders are separated to meet various requirement

With spiral spring assistance system, the patented 3-linkage seat adjustment is concisely designed, cost-saving and offers easy installment

The 5LBS incremental weight is to meet users requirement

All dynamic components are shielded for safety purpose

All the hardware parts exposed are nickel plated or stainless steel. The NBK bearing is applied

Gas spring for resetting

IF93 >>>

These simple, clean-lines, selectorized series specially designed for entry level small clubs and institutional applications. It offers a complete functional package, is inexpensive to own and is easy to maintain. It matches up beautifully with the benches and racks of the IF line.

- The clear and precise instructions and training tips are great for individuals who is new to strength training and help users to build targeted muscle .
- Ergonomic seat cushion, chest and back pad are made of polymer materials. The specially designed pads have different angles, which meet various training requirements.
- Specially designed cup holder is perfectly integrated with cage, making it simple and enorous.
- Ergonomically designed handle bars are made of TPV materials, which make your garb more comfortable and safety. It combines with aluminum end cap reflecting high-end taste.
- The upright tubing thickness of 2.5mm and the functional parts with rectangular tube at size of 50×100×2.5mm, which make IF93 stronger and more powerful.
- The main frame is coated with materials that environmental friendly, which helps to improve products quality and provide with good scratching and corrosion resistance.
- The translucent shroud with ABS materials (optional full shroud) is endurable and wear resisting. The main plastic parts are made using injection molding that help to provide teady quality.
- Designed with stainless steel seat adjustment that provides a longer service life, made it easy to adjust and look beautiful.
- The whole series are adopted with the equivalent cage height of 1530mm, which help to create a bright training environment of fitness club.
- All pulleys are adopted with high quality bearings which ensure smooth movement.

Jungle >>>

Multiple accessory racks enable user to put stuff and easy of access.

Shroud is made of translucent injection molding ABS which make the machine safer and good-looking.

Use dual-pulley for high rowing and low rowing. Increase diversity of motion.

Switch from high rowing to low rowing which accomodates different sizes of training field yet saving space either.

* WEIGHT STACK SOLD SEPARATELY

OPTION 1	160lbs/68.3kg
OPTION 2	200lbs/85.5kg
OPTION 3	235lbs/102.8kg
OPTION 4	295lbs/129.2kg

Larger distance between left and right upright accomodates a variety of users needs. No interference for users during exercise. (distance between sliding rail is 2680mm)

Multi-handle grips accomodate a variety of user training demands

Thanks to 1785mm sliderail, the hand grips could be adjusted from 1 to 36 degree. It helps to train almost total body muscle groups.

Use stainless steel roller tubing that prevent machine from wearing and corrosion.

Larger size of groundtubing strengthen stablization of machine

Perfect training placard enable detailed and professional guide to workout

Assistance handle bar: Easy hand grips help user keeping balance in exercise and enable more strength training.

Use 3.0mm thickness tube and spray powder coated. It has enhanced corrosion resistance and better appearance.

A roller type of pulley enables glide smooth and easy to adjust

The height of groundpads are adjustable which guarantees the stablization of machine.

* COLOR OPTIONAL.
OPTIONAL FULL OR SMALL SHROUD.

ES3000 3 STACK MULTI-STATION

Wide grip pull-down bar connected to two overhead pulleys for further more smooth workouts.

Adjustable foam rollers act as a leg hold-down during the pull-down workout to meet users at different height.

Four-bar linkage design offers easy adjustable seat for shifting the workouts between lat pull and lower row.

Dual overhead pulleys with hand straps allows for diverging motions.

3-stack stations allow multiple users to workout simultaneously.

Bottle holders are located on both sides of shrouds for convenient use.

Product Dimension (L×W×H)	2694x2440x2148(mm) 106.1x96.1x84.6(in)
Product Weight	299.9kg/661.2lbs
Stacks Weight	91kgx3 (200lbsx3)
OPT Weight	26.5kg

ES3000 OPT HI-LO PULLEY ATTACHMENT

Quick installation, shares the stack with lat pull for saving space and cost.

31 vertical pulley positions for a large variety of different exercises.

Excellent structural design, easy & quick adjustment offers dynamic workout like chest press, incline press and shoulder press which meet various muscle groups training.

Adjustable handle is conveniently located for easy access.

Excellent structural design, easy & quick adjustment seat is for prone leg curls or leg extension exercises which satisfy various muscle groups.

ES9030 DUAL ADJUSTABLE PULLEY ES7011 BENCH

Chin-up/pull-up bar with ergonomic bends for regular grip, wide grip and reverse grip exercises.

31 vertical pulley positions for a large variety of different exercises.

With accessories as lat strap, long bar retractable strap, leg ext/curl strap and tricep rope, DAP offers users dynamic and various workouts.

Multi-position bench offers 5 upright/incline positions for back pad and 3 position for seat, which satisfies various workout experience.

The over-sized feet would stabilize the users during certain workouts like tricep extension.

Conveniently located iPad holder allows user to watch online training videos during the workouts, over-sized bottle holder is within reach.

Fold away bench for easy storage and space saving

ES9030(Long Shroud)

Product Dimension (L×W×H)	1734x1123x2150(mm) 68.3x44.2x84.7(in)
Product Weight	149.5kg/328.9lbs
Stacks Weight	77kgx2 (170lbsx2)

ES9030(Short Shroud)

Product Dimension (L×W×H)	1734x1123x2150(mm) 68.3x44.2x84.7(in)
Product Weight	121.5kg/267.3lbs
Stacks Weight	77kgx2 (170lbsx2)

ES7011

Product Dimension (L×W×H)	1440x525x490(mm) 56.7x20.7x19.3(in)

HSP-PRO001 AIR RESISTANCE DUAL-ARM FUNCTIONAL TRAINER

The 5 LED windows design can accurately display the resistance level, training times(2 windows), peak power percentage and parameters, which is convenient for the user to always grasp the training information to scientifically arrange the training plan

Depending on the height and movement of the trainer, the training arm can be adjusted in coronal plane (up and down) of 180° and at 13 gears. Unilateral horizontal level of both arms (front and rear) 90°, 7 gears adjustment, which is suitable for all heights and training types

Model	HSP-PRO001
Power	110V-220V
Resistance Range	2kg-25kg
Resistance Increment	0.1kg
Resistance Levels	25
Product Dimension	2500×1100×2400 (mm) 98.4×43.3×94.5 (in)
Net Weight	150kg/330.7lbs
Fixed	Can be fixed to the floor or wall

Equipped with double training arms, the cable joint end can rotate 360° with the change of force direction of the trainer, ensuring the comfort of the strength exertion and variable force direction need during the training process. Meanwhile, it can protect the cable and extend its service life

It can also expand a variety of accessories to cooperate with various special functional trainings, such as dual pull handle, ankle strap, training bat, training belt, thigh strap, tricep training rope, etc

Through easy-to-understand training guidelines, users can quickly master the training methods of major muscle groups

HSP-PRO002 AIR RESISTANCE FUNCTIONAL TRAINER

Accurate and convenient adjustment: it can adjust resistance at a minimum increment of 0.1kg with two buttons; giving user a better control over the functional training process

Through easy-to-understand training guidelines, users can quickly master the training methods of major muscle groups

The 50mm-2000mm single pulley track with 36 gears adjustment, and the angle of the pulley can be rotated with the change of the direction of the force, which meets all heights and training types of use, but also to protect the equipment and cable, extend the life of the role

Multiple HSP-PRO002 equipment can be designed as a training area to meet the needs of multi-functional training for single trainer or multi-group training

Model	HSP-PRO002
Power	110V-220V
Resistance Range	2kg-37.5kg
Resistance Increment	0.1kg
Resistance Levels	36
Product Dimension	560×445×2340 (mm) 22.0×17.5×92.1 (in)
Net Weight	150kg/330.7lbs
Fixed	Can be fixed to the floor or wall
